

1:1 Introduction:

My main goal in my thesis is to get a solid animation while refining my skills. Many areas of animation inspired me, however there were a few works of art in particular that really motivated me. They were Chuck Jones's Animation, The Incredibles, Wallace and Gromit, Geri's Game as well as the sculpture exhibit L'Hospice. Through these references I've come up with my narrative about a retired superhero and his sidekick dog that are now bored in their retirement. Due to superpower malfunctions that come with age the two have everyday adventures that occur within their house.
